Our Objectives

Certify qualified environmental professionals.

We will certify select environmental professionals to maximize appropriate actions and effective operations at regulated locations.

Certification and Licensing Branch

Drinking Water, Wastewater, Solid Waste Operators

Facilitate environmental stewardship.

We will assist, educate and encourage Kentucky's citizens so they make informed choices that value Kentucky's environment and create healthier, stronger communities.

Environmental Assistance Branch

Environmental Leadership

Help entities comply with Kentucky's environmental requirements.

We will assist and educate regulated entities so they understand and comply with their environmental obligations.

Brownfield Redevelopment (outreach and grant assistance)

Regulatory Compliance

kentucky operator
certification program

Division of Compliance Assistance

Improving Performance

What Does the Operator Certification Program Offer?

- Training
 - Topics range from new technologies, energy efficiency, permits, regulatory requirements and issues related to water and wastewater treatment, collection and distribution and solid waste management.
